

Year 12 Music

The Year 12 Music curriculum is designed to develop and improve key skills taking students to a higher level of musical understanding. Each unit has a specific focus, technique, performance and composition where advanced level abilities are developed spirally giving students experience and mastery of skills in Music. The curriculum has a number of short tasks exploring aspects performance, composition and technique. We do this through a variety of media and instruments, students are also now encouraged to fully focus on their specialist instrument both as a soloist and in an ensemble. There is extended computer based music software composition work (Cubase and Sibelius) really giving students a taste of professional music making.

Methods of deepening and securing knowledge:	
Retrieval practice	Reference back to previous techniques to develop ideas and use previously taught skills.
Elaboration	Teaching of elements to support deeper understanding and exploration.
Concrete examples	Exemplar music with reference to 'The Great Composers' and modern classics.

Independent Learning:

Students in Year 12 Music have an ongoing independent learning to develop their skills instrumentally and vocally. Students keep a diary with their instrumental teacher charting their practice (independent learning) and progress. Students are also set weekly tasks to appraise a piece of music, completing a worksheet of questions developing their ear and inspiring understanding of compositional techniques.
